

Don Pachner, President

The Natural Choice[®] For Insurance[™]

PERSONAL ATTENTION – PROFESSIONAL RESULTS

In 2003 Don Pachner decided to turn his hobby into a business and started the insurance brokerage firm Pachner & Associates with an emphasis on helping outdoors and conservation organizations of all sizes find appropriate, reasonably-priced insurance.

Don is active as a volunteer hike and snowshoe leader for not-for-profit outdoors organizations, leads an annual nature hike and a trail maintenance crew at state park, has been involved in running the NY State outings program of a national conservation organization, and volunteers in numerous conservation activities with an emphasis on wetlands protection, open space and trail corridor protection, regulatory & legislative issues, and watershed protection.

You will be pleasantly surprised by how accessible Don is for insurance advice at any time of the day or week. Our staff understands what is important to your organization and responds quickly as if you are our only customer. We have a passion for helping outdoors people with their insurance issues!

"I realize how hard you worked for me on this, and I want you to know I really appreciate it! I've always taken a pretty cynical attitude about all those ads on TV about bankers and insurance companies taking their clients' concerns personally, but you make me believe that some of what they say might actually be true... in a few rare examples like you!"
